To 6th, 7th & 8th Grade Students and Parents,

Fall sports will be here soon, so it is time to start planning for your student-athlete. All sports schedules will be linked on the athletic website for your convenience, (https://www.sgsdragonathletics.com). We have a no-cut policy for our sports program and encourage participation. There is a spot for everyone regardless of past experience or skill level. If you are new to Saint George's School, athletics is the perfect way to get involved, compete, and build new friendships within the school community.

The 6th, 7th, and 8th grade athletes compete in the Northeast 2B League for athletics. We offer cross country, volleyball, basketball, and track. Each sport season runs approximately 6-7 weeks. It is a WIAA (Washington Interscholastic Athletic Association) requirement that each athlete completes Seven (7) practices before they are allowed to compete. Because the seasons are short, missed practices will drastically reduce the number of contests in which athletes can participate. Once school begins, teams will practice after school each day. All students will be able to catch the late bus if needed unless we have a contest on that day.

Saint George's provides transportation to all away contests. Students are expected to ride the team bus to each event. Parents can take their own students' home after the game if they sign out with the coach. Parent's who plan on taking someone other than their own student home, must provide advanced notice, twenty-four hours prior to the trip, to the Coach and Athletic Director. The team schedules will be on the website and updated regularly. Please be in the habit of checking the website before you leave for games. Cancellations and rescheduling, especially with weather conditions and air quality, can happen on short notice.

Each student/athlete must have the following forms submitted prior to the first practice, or they will be unable to participate in practice. Even if you do not participate in fall sports, but participate in other activities throughout the year, it is best to get these forms in prior to the beginning of the year when possible.

Note – All forms are on Final Forms, our forms collection website. Each student and parent will receive an email from Final Forms with instructions on filling out your school forms. There is a link on Final Forms to the official Physical Form.

Once all forms are turned in on Final Forms, athletes may participate in practice.

Important Dates for 2026-2027
