The Mission of Saint George's School:
Inspiring Scholars, Athletes and Artists to lead and serve others.

Professional Opportunity: Middle School Science Teacher

Saint George's School is an independent K-12 school, serving a population of approximately 340 students from the greater Spokane area. The school offers a vibrant and challenging academic program highlighted by the International Baccalaureate (IB) Diploma Program in 11th and 12th grades and complemented by a well-developed set of enrichment offerings. Students thrive due to low student-teacher ratio, and a caring and dedicated faculty who are open to collaboration and team building. SGS seeks team members who seek to continue their growth as professionals, both through reflective practice and outside professional development.

Saint George's School seeks a Middle School Science teacher (0.8 FTE) for a mid-year position in the 2026-27 school year. The classes to be taught will include Earth and Environmental Science and Integrated Science. Successful candidates will: demonstrate expertise in their disciplines, love working with adolescents and their parents, have a strong understanding of pedagogy, a desire to collaborate closely with colleagues, an interest in encouraging cross-curricular connections, and an openness toward outdoor experiences with students. Teachers at Saint George's model life-long learning.

Responsibilities:

- Prepare for and facilitate science classes for students in grades 7-8
- Develop mentoring relationships with students
- Provide a class experience that matches the school culture of developing each student's talents
- Prepare for and lead 5-day overnight Coast Trip for 8th grade (with significant support from other faculty)
- Provide feedback to students and families in a timely manner
- Attend weekly and monthly staff meetings
- Academic advising of students with daily study hall/tutorial
- Other related duties as assigned
- Opportunities to coach may be available

The successful candidate will be able to:

- Inspire students
- Contribute to the community and life of the school
- Design and develop creative and challenging curriculum that meets the needs of all students
- Differentiate for a range of learners
- Create unique curricula, learning standards, and goals within each class
- Effectively assess student learning using a variety of assessment strategies
- Commit to a learner centered pedagogy and a constructivist classroom
- Facilitate students' independent critical thinking skills
- Communicate effectively with colleagues, students, parents, Administration, and members of the SGS community
- Be flexible, creative, and enthusiastic; have a positive attitude
- Work in a mission driven school

Qualifications required:

- Bachelor's degree in science or education from an accredited college or university.

Qualifications preferred:

- 3 years of experience
- Valid Teaching Certificate preferred
- Master's degree in science or education from an accredited college
- Technical proficiency with an interest in utilizing, where appropriate, 1:1 school provided student laptops (research, organization, Microsoft suite, or other programs to further and support student learning)

Salary: Annual salary range is $40,228–$65,228, adjusted to reflect 0.8 FTE, and will be prorated based on the employee's start date.

Benefits:

- 403(B)
- 403(B) matching
- Health insurance
- Dental insurance
- Health Savings Account and/or Flexible Spending Account
- Paid time off
- Professional development assistance
- Tuition reimbursement

Application Process: Applicants should submit the following with their application materials:

- Cover letter explaining why you are interested in and qualified for this position
- Statement of Educational Philosophy
- A current resume
- A Saint George's Application of Employment (found on the school website).
- College Transcripts

Application materials should be sent to the following individual (via mail, email, fax or in person):
